“Hello” from our Town Center Dental Care Team

Front row left to right: Dr. Michael Lorio, Office Administrator Cindy Daum, and Dr. Fred Daum. **Back row:** Dental Assistant Nanette Fleenor, Dental Hygienists Colleen Brinkert and Kathy Roberts, and Dental Assistant DeAn Hatler. (Not pictured: Dental Assistant Heidi Knight)

Welcome New Staff Member, Heidi Knight!

Heidi is the assistant on Friday's. She brings years of great experience. When Heidi is not at our office, she is busy teaching Dental Assisting and working in the periodontal specialty office. We have enjoyed her experience and her ideas. Welcome Heidi! We're confident that you'll take great care of our patients!

Welcome Dental Hygienist, Kathy!

We are very happy to have our new Dental Hygienist, Kathy, join our staff. Kathy has a great deal of experience in dentistry, first becoming a dental assistant, and for the last 18 years working as a hygienist. She loves working with people of all ages. Kathy grew up in Molalla and has lived in Oregon City for 25 years. When not working, she loves spending time with her husband and two sons and their dog, Kip, an adopted greyhound. They relax in Central Oregon with hiking, biking and canoeing. If you have any gardening problems, just ask Kathy. She is a Master Gardener. Welcome Aboard, Kathy!!!

Why Consider A Dental Implant?

The simple answer is that dental implants were developed to provide effective replacements for missing teeth... and it is important to replace *any* missing tooth. Besides causing possible discomfort and embarrassment, gaps caused by missing teeth can also lead to further dental problems – including tooth decay, gum disease, bone damage, or TMJ disorder.

In addition, dental implants won't slip or cause discomfort as dentures sometimes do. They allow you to eat more comfortably; they don't have to be removed at night; and they're especially natural-looking.

If you're missing one or more teeth because of injury, gum disease, decay or any other cause... or if you're having problems with a full or partial denture... you may find that dental implants are worth considering. Just ask us for further information.

DENTIST CORNER

introduction to our newsletter

As you may have already noticed, we are now producing a newsletter for our patients. It will contain tips to improve your dental health, such as how to prevent tooth decay and periodontal disease. We will also keep you up-to-date on the latest advances in our dental treatment and cosmetic dentistry.

We have tried to put our personal touch in each issue. We would welcome any comments, questions or suggestions for any articles or topics you are interested in.

Our entire office wants you to know we care about your dental health and hope this newsletter is not only fun, but also informative for you and your family.

Sincerely,
Michael Lorio, D.M.D.

EARLY SPRING WHITENING SPECIAL

Schedule now for a brighter smile!
April 1st to June 30th

\$99.00

Thank you for the compliment!!

When you refer a new patient to us you are paying us a wonderful compliment. We value the chance to be given the privilege to meet and serve the needs of a new patient. Ask us about our referral program at your next visit. **It pays to refer!**

Allergies and Plaque Buildup

Signs of spring can bring more than flowers for people with allergies. Sneezing attacks and running noses can make life pretty miserable. A lot of allergy sufferers turn to antihistamines for relief. What many people don't know is that antihistamines can cause problems in your mouth. Antihistamines may do a good job

of drying out runny noses, but they can also dry out your mouth. That means less saliva to wash away debris from your teeth. Over time the plaque will build up around teeth and gums and cause cavities. If you are taking antihistamines, the best remedy is to drink plenty of water to keep your mouth moist. Brushing and flossing after each meal will keep your smile healthy and stop plaque from getting a hold of your teeth.

Finance Options For Your Dental Health

We want to make sure that our patients are aware of the excellent financial plan we offer at Town Center Dental Care. You can finance all your treatment through Capital One/Healthcare. Check this plan out online at: capitalonehealthcarefinance.com

INTEREST-FREE PLAN

- Loan Amount:** You Choose From: \$300 – \$25,000
- APR:** None, if paid by the end of the interest-free period
- Interest-Free Period:** You Choose From: 3, 6 or 12 months
- Monthly Payment:** Determined by term, loan amount and APR
- Fees:** Application fee: None
Prepayment fee: None
- When you would pay interest:** If you have an unpaid balance at the end of your interest-free period, a 19.99% retroactive APR will be applied to the balance of your loan during the interest-free period. See estimated monthly payment table for more information.
- When you'll confirm the details:** Upon approval, you'll confirm your exact monthly payment and interest-free period.

no hassle. fact pact

FIXED RATE PLAN

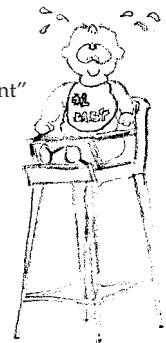

- Loan Amount:** You Choose From: \$1,000 – \$25,000
- APR:** Fixed and will not change, 1.99% – 23.99% Upon approval, the Annual Percentage Rate available to you will be determined by the term for which you apply and your credit standing.
- Loan Term:** You Choose From: 18, 24, 36, 48 or 60 months
- Monthly Payment:** Determined by term, loan amount and APR
- Fees:** Application fee: None
Prepayment fee: None
- When you'll confirm the details:** Upon approval, you'll receive your exact APR, fixed monthly payment and loan term.

Dental Mental Word Scramble

Unscramble these four jumbles, one letter to each dash mark, to form four ordinary words.

○ _ _ _ _ ○
T R A E W
○ _ _ _ _ ○
S H R U B
○ _ _ _ _ ○
R A C S B E
○ _ _ _ _ ○
S S I T A S

"Whaaa....
me no want"

A dental patient & a baby
have this in common.

Now arrange the circled letters to form the surprise answer as suggested by the above cartoon.
